

TALHA KHAN

Technical Project Manager | AI Product & Platform Delivery | Healthcare

New Jersey, USA | talha.khan9344@gmail.com | (848) 348-1267 | linkedin.com/in/talhakhan9344

EXECUTIVE SUMMARY

Technical Project Manager and product builder — I conceived and shipped OpenParser AI, an enterprise document intelligence platform, owning it from product vision and roadmap through engineering leadership and go-to-market. With 9+ years of professional experience, including 8+ in technology, I've paired account stewardship with delivery excellence across AI and Healthcare portfolios — leading distributed teams across the U.S., Pakistan, and India, and bringing the technical fluency to partner closely with engineering and the executive presence to align C-suite stakeholders, often in the same conversation.

CORE COMPETENCIES

Product Vision & Roadmapping | Technical Project Management | AI & ML Platform Delivery
Distributed Team Leadership (US · Pakistan · India) | Revenue Growth & Client Expansion | Agile / SAFe / Scrum at Scale
RPA & Process Automation | Risk, Scope & Budget Management

CAREER HIGHLIGHTS

\$6.5M in active client business managed; contributed to \$4.5M+ in account growth
Up to 47% reduction in delivery timelines via AI-assisted development (since 2024)
21% infrastructure cost reduction through legacy platform modernization
20% average under-budget delivery across managed projects
6 direct reports, plus a broader team of 12+ coordinated across functions
3-5 concurrent AI, cloud & analytics projects delivered at any given time

PROFESSIONAL EXPERIENCE

Innovatix Technology Partners | Total Tenure: 8+ Years | New Jersey, USA (Hybrid)

Technical Project Manager

Innovatix Technology Partners | January 2019 - Present | New Jersey, USA · Hybrid

- Conceived and drove product vision, roadmap, and delivery for OpenParser AI (enterprise document intelligence platform) — owning project planning, engineering leadership, and go-to-market execution across the full delivery lifecycle.
- Served as the primary point of contact for requirements, expectations, and contractual delivery across enterprise accounts spanning data & analytics, healthcare intelligence, and healthcare payer clients — pairing account stewardship with delivery excellence to drive \$4.5M+ in account growth.
- Led 6 direct reports and coordinated a broader team of 12+ across the U.S., Pakistan, and India — engineers, QA analysts, and data scientists — improving team velocity by 33% through Agile KPIs, sprint governance, and structured capacity planning.
- Managed 3-5 concurrent projects in production at any given time — partnering directly with C-suite and director-level stakeholders against high-stakes delivery timelines, and consistently delivering on time, within scope, and under budget.
- Delivered Innovatix ATS (internal SaaS applicant tracking system) on time and within budget — owning requirements, backlog management, roadmap planning, sprint execution, release management, and cross-functional alignment.
- Since 2024, leveraged AI-assisted development to accelerate delivery timelines by up to 47%, meaningfully reducing project costs in the process, and establishing a repeatable AI-augmented delivery model across the organization.
- Implemented structured risk, issue, and dependency management frameworks that prevented three major delivery delays, protecting revenue-critical client commitments.
- Modernized a legacy claims and provider onboarding platform to .NET and AWS, reducing infrastructure spend by 21% and cutting deployment time from 2 weeks to 1 day.
- Built AWS-native analytics workflows (Lambda, API Gateway, S3, RDS) enabling secure, compliant data processing for AdTech and HealthTech clients.
- Built multi-project roadmaps and maintained delivery accountability across Healthcare and AdTech verticals, with additional exposure to InsurTech engagements.

Data Scientist

Innovatix Technology Partners | July 2018 - December 2018 | Remote · Internal Rotation

- Led analytics development for an out-of-home AdTech platform client, delivering the full end-to-end analytics stack 2 months ahead of schedule (5-month project completed in 3).
- Built ML models for claims classification and provider segmentation using Python, Pandas, and Scikit-Learn, achieving 12-18% accuracy improvements over prior baselines.
- Developed executive-grade BI dashboards (Power BI, Tableau, QuickSight) enabling KPI tracking across 20+ enterprise clients; implemented speech analytics via CallMiner resulting in 15% call-center efficiency gain.

Senior Software Engineer (Consulting) - Concurrent, Part-Time

Cinnova Technologies, LLC | November 2021 - January 2023 | Remote

- Part-time consulting engagement carried alongside the full-time Technical Project Manager role at Innovatix above.
- Delivered web applications, APIs, and BI dashboards for U.S.-based clients using Angular, .NET, and cloud-based development workflows.

EARLY CAREER

Founder & CEO, Grounded Sax Nature, Inc. | Jul 2017 – Apr 2018 — Founded an eco-friendly apparel startup (eucalyptus-based denim); business plan through incorporation and distribution outreach.

RPA Analyst, Accelirate, Inc. | Mar 2017 – Jun 2017 — Built RPA workflow POCs for financial data processes (Mark-to-Market, AR/GL, invoice entry).

EDUCATION

BS in Business Administration - Accounting & Finance, Minor in Economics

Peter T. Paul College of Business & Economics, University of New Hampshire | August 2013 - December 2016 | Durham, NH

GPA: 3.41 | Dean's List Honors (Fall 2013, Spring 2014, Fall 2014) | Dean's List HIGH Honors (Spring 2016)

CERTIFICATIONS & CREDENTIALS

- PMP - Project Management Professional (PMI)
- PMI-ACP - Agile Certified Practitioner (PMI)
- SAFe 6 Agilist
- SAFe 6 Scrum Master
- PSM I - Professional Scrum Master (Scrum.org)
- PSPO I - Professional Scrum Product Owner (Scrum.org)
- AWS Certified Cloud Practitioner
- AI Product Management - Certificate, Duke University (Coursera)

Additional credentials: AWS Technical Professional & Cloud Economics Accredited (AWS partner training) - Microsoft Data Science Professional Program & Power Platform Fundamentals - Python Programmer (DataCamp) - UiPath RPA Developer - WorkFusion Power User - CallMiner BI Analyst+

TECHNICAL SKILLS

Project & Product: Technical Project Management, Project Planning & Scheduling, Risk & Dependency Management, Budgeting & Cost Control, Product Roadmapping, SDLC Leadership, Agile (Scrum/SAFe), Release Management, OKRs & KPI Frameworks

AI / GenAI & Data: LLM Product Development (RAG Pipelines, Prompt Engineering, AI Agents, Evals), Python, Pandas, Scikit-Learn, SQL, Power BI, Tableau, QuickSight, Snowflake

Cloud & Infrastructure: AWS Lambda, API Gateway, S3, RDS, CI/CD, .NET, Microservices, Azure, Power Platform

Automation: RPA (UiPath, WorkFusion, Power Automate), AI-Assisted Development, Process Optimization

Domains: Healthcare (payer), AdTech, with additional exposure to InsurTech, E-Commerce, Manufacturing, SaaS, Enterprise AI Platforms
