

TALHA KHAN

Technical Project Manager | AI Product & Platform Delivery | Healthcare

New Jersey, USA | talha.khan9344@gmail.com | (848) 348-1267 | linkedin.com/in/talhakhan9344

EXECUTIVE SUMMARY

Technical Project Manager — currently at Innovatix Technology Partners, where I lead AI-assisted development and end-to-end product launches, from OpenParser AI (built on OpenAI and Llama 3 APIs) to the Innovatix ATS platform, using tools like Claude, Cursor, and ChatGPT/Copilot across my team. With 9+ years of professional experience (8+ in technology), I've paired account stewardship with delivery excellence across AI and Healthcare portfolios — leading international, cross-border teams, with the technical fluency to partner closely with engineering and the executive presence to align C-suite stakeholders, often in the same conversation.

TECHNICAL SKILLS

Project & Product: Technical Project Management, Project Planning & Scheduling, Risk & Dependency Management, Budgeting & Cost Control, Product Roadmapping, SDLC Leadership, Agile (Scrum/SAFe), Release Management, OKRs & KPI Frameworks

AI / GenAI & Data: LLM Product Development (RAG Pipelines, Prompt Engineering, AI Agents, Evals), Llama 3, OpenAI, Anthropic, Gemini APIs, Pinecone, LlamaIndex, Python, Pandas, Scikit-Learn, SQL, Power BI, Tableau, QuickSight, Snowflake

Cloud & Infrastructure: AWS Lambda, API Gateway, S3, RDS, CI/CD, .NET, Microservices, Azure, Power Platform

Automation: RPA (UiPath, WorkFusion, Power Automate), AI-Assisted Development, Process Optimization

Domains: Healthcare (payer), AdTech, with additional exposure to InsurTech, E-Commerce, Manufacturing, SaaS, Enterprise AI Platforms

CORE COMPETENCIES

Product Vision & Roadmapping | Technical Project Management | AI & ML Platform Delivery
Distributed Team Leadership (International, Cross-Border) | Revenue Growth & Client Expansion | Agile / SAFe / Scrum at Scale
RPA & Process Automation | Risk, Scope & Budget Management

CAREER HIGHLIGHTS

\$6.5M+ in active client business managed; contributed to \$4.5M+ in account growth (Macrosoft, 6-year tenure)

2 AI products shipped zero-to-production at Innovatix — OpenParser AI and Innovatix ATS (1,000+ resumes AI-parsed)

Up to 47% reduction in delivery timelines via AI-assisted development at Innovatix

21% infrastructure cost reduction through legacy platform modernization

20% average under-budget delivery across managed projects

4 direct reports, plus 10+ indirect reports coordinated at Innovatix

3-5 concurrent AI, cloud & analytics projects delivered at any given time

PROFESSIONAL EXPERIENCE

Technical Project Manager

Innovatix Technology Partners | July 2025 - Present | New Jersey, USA

- I own and drive product vision, roadmap, and delivery for OpenParser AI, a RAG-based document intelligence platform with 30+ AI agents, across the full delivery lifecycle — project planning, engineering leadership, and go-to-market execution.
- Built Innovatix ATS from the ground up — an AI-native applicant tracking platform now being productized for market launch. Personally developed the initial MVP through AI-assisted development, then led a lean team of one engineer and one QA to production.
- Shipped the ATS platform's core AI capabilities: bulk resume parsing, candidate-job matching, and Teams-integrated interviews with automated post-interview analysis — JD-match scoring, competency assessment, hiring recommendations — letting non-technical interviewers evaluate candidates with technical rigor. 1,000+ resumes parsed to date.
- Leading 4 direct reports and 10+ indirect reports, applying AI-assisted development to cut delivery timelines by up to 47% and establish a repeatable AI-augmented delivery model.

Scrum Master

ASI (Advertising Specialty Institute) | June 2024 - June 2025

- Facilitated Agile ceremonies — sprint planning, daily stand-ups, reviews, and retrospectives — for two cross-functional teams totaling 14-20 members.
- Led backlog refinement and retrospective sessions across 2-3 concurrent projects, driving continuous process improvement.
- Partnered with product owners and stakeholders to maintain sprint predictability and team velocity across both teams.

Microsoft | Total Tenure: ~6 Years

Technical Project Manager

Microsoft | January 2019 - June 2024

- Managed 2-3 concurrent healthcare technology projects, serving as primary point of contact for enterprise accounts — growing managed client business to \$6.5M+ and contributing \$4.5M+ in account growth.
- Legacy claims and provider onboarding platform modernization to .NET and AWS was mine to lead — reducing infrastructure spend by 21% and cutting release cycles from 2 weeks to 1 day.
- Built AWS-native analytics workflows (Lambda, API Gateway, S3, RDS) enabling secure, compliant data processing for healthcare clients.
- An international team came together under my coordination, improving velocity by 33% through Agile KPIs, sprint governance, and structured capacity planning.
- Partnered directly with C-suite and director-level stakeholders across a 3-5 project portfolio; the risk and dependency management frameworks I put in place prevented three major delivery delays.

Senior Software Engineer (Consulting) - Concurrent, Part-Time

Cinnova Technologies, LLC | November 2021 - January 2023

- Part-time consulting engagement carried alongside the full-time Technical Project Manager role at Microsoft above.
- Delivered web applications, APIs, and BI dashboards for U.S.-based clients using Angular, .NET, and cloud-based development workflows.

Data Scientist

Microsoft | July 2018 - December 2018 | Internal Rotation

- Led analytics development for an out-of-home AdTech platform client, delivering the full end-to-end analytics stack 2 months ahead of schedule (5-month project completed in 3).
- Built ML models for claims classification and provider segmentation using Python, Pandas, and Scikit-Learn, achieving 12-18% accuracy improvements over prior baselines.
- Developed executive-grade BI dashboards (Power BI, Tableau, QuickSight) enabling KPI tracking across 20+ enterprise clients; implemented speech analytics via CallMiner resulting in 15% call-center efficiency gain.

EDUCATION

BS in Business Administration - Accounting & Finance, Minor in Economics

Peter T. Paul College of Business & Economics, University of New Hampshire | August 2013 - December 2016 | Durham, NH

GPA: 3.41 | Dean's List Honors (Fall 2013, Spring 2014, Fall 2014) | Dean's List HIGH Honors (Spring 2016)

CERTIFICATIONS & CREDENTIALS

- PMP - Project Management Professional (PMI)
- PMI-ACP - Agile Certified Practitioner (PMI)
- SAFe 6 Agilist
- SAFe 6 Scrum Master
- PSM I - Professional Scrum Master (Scrum.org)
- PSPO I - Professional Scrum Product Owner (Scrum.org)
- AWS Certified Cloud Practitioner
